

1. The instructions for preparation of each data item in the CDRL (DD Form 1423-1) are given on individual Data Item Descriptions (DIDs), DD Forms 1664. DIDs may be found on the Defense Standardization Program Web site at <http://www.dsp.dla.mil>. The DID revision current at time of contract award shall be used, unless otherwise noted. In some cases the CDRL contains additional instructions for preparation of data items. Where these additional instructions are extensive, backup sheets are utilized. All the instructions contained in the CDRL forms or on the backup sheets are directive on the contractor. CDRL Revisions will be issued on a page-by-page basis.
2. The contractor shall collect, prepare and distribute the data in accordance with the CDRL or as called for by FAR and FAR Supplement clauses of the contract. This will be done by the most economical method, within the requirements of the contract.
3. The data items in the CDRL are cross-referenced to the associated work statement tasks under which the basic information is generated. "Contract Reference" will be Statement of Work paragraph numbers unless annotated otherwise. When new delivery orders are placed utilizing existing CDRLs, the "contract references" block do not need to be updated.
4. Transmittal documents must clearly identify the document(s) delivered and must also be sequentially numbered within CDRL Sequence Number(s), i.e., the third delivery of CDRL Sequence Number A001 shall be identified as A001-003. Transmittal documents shall also specify the delivery order requiring the delivery. Each item delivered under the same CDRL number shall be separately sequenced. Final delivery of each data item shall also be annotated on the transmittal document.
5. For all data items requiring Government approval, the contractor shall deliver a final version within 30 days after receipt of Government comments (DARGC) unless otherwise noted on the individual DD Forms 1423. The Government's response may take the form of approval, approval-with-comments or comments. The following definitions apply:

Approval: The data submission is acceptable as submitted.

Approval-With-Comments: The data submission will be acceptable when Government comments are satisfactorily incorporated.

Comments: The data submission is deficient in scope, format, technical content and/or intelligibility and requires rework. The data submission will not be considered for further action by the Government until the comments are adequately incorporated.

6. The contractor shall use distribution and control markings as follows:
  - a. The following Distribution Statement shall be used on all data deliverables except as noted on the individual DD Form 1423 or as required by b. below:

**DISTRIBUTION STATEMENT:** Distribution of this document is limited to the Ministries of Defense (MODs) of France, Germany, Italy and Spain; the US DoD; and their contractors only in order to control critical technology. Other requests for this document shall be referred to the MIDS International Program Office, Joint Program Executive Office, Joint Tactical Radio System (JPEO JTRS MIDS IPO); 33050 Nixie Way, San Diego, CA 92147-5416.

- b. The following Distribution Statement shall be used on all data deliverables that are determined to be releasable within the United States only:

**DISTRIBUTION STATEMENT:** Distribution of this document is limited to the United States Department of Defense and US DoD contractors only in order to control critical technology. Other requests for this document shall be referred to the MIDS Program Office, Joint Program Executive Office, Joint Tactical Radio System (JPEO JTRS MPO); 33050 Nixie Way, San Diego, CA 92147-5416.

- c. The following Warning shall be used on all data deliverables that are determined to contain export-controlled technical data:

**WARNING** – This document contains technical data whose export is restricted by the Arms Export Control Act (Title 22, U.S.C., Sec 2751, et. Seq.) or the Export Administration Act of 1979, as amended, Title 50, U.S.C., App. 2401 et. Seq. Violations of these export laws are subject to severe criminal penalties.

- d. In addition to any other required distribution or control markings, all unclassified data deliverables shall be marked in accordance with DoD 5200.1R with the following:

FOR OFFICIAL USE ONLY

7. The contractor may deliver CDRL items early except that CDRL items with an established as-of date shall not be delivered prior to the as-of date as established by the DD Form 1423, Block 11. Delivery dates stipulated are for receipt at the destination.
8. All CDRL items identified on the DD Form 1423 as Joint CDRL items require signature by each participating contractor prior to submittal to the Government. Only one of the participating contractors is required to submit the data item; however, the contractor that is not submitting the data item shall provide a transmittal letter referencing the submittal by the contractor providing the data item.
9. Data shall be delivered in digital format. The preferred method for this delivery shall be via the Program Office's data Web sites for unclassified data, and SIPRNET for classified data. If SIPRNET account is not yet approved, classified data shall be delivered via mail in digital format on portable electronic media. A scanned electronic image of the signed, formal delivery letter and all signature pages for all deliveries shall be included in the data delivery. Data provided in hard copy format or on portable digital media shall be delivered to the following addressees:

Unclassified Mailing Address:

JPEO JTRS MIDS PMO  
Attn: David Means (324)  
33050 Nixie Way  
San Diego, CA 92147-5416

Classified Mailing Address\*:

Commanding Officer,

SPAWARSYSCEN, Code D0355  
53560 Hull St.  
San Diego, CA 92152-5410  
(619) 553-4926

\* The unclassified mailing address shall be put on the inside wrapping of the classified mailing.

10. Data items delivered in digital format on portable electronic media shall be provided on CD-ROM.

11. Digitally formatted data deliveries shall be provided in PDF or XML format. For two dimensional drawings, illustrations, and schematics, the digital formats shall be "Vector (CGM, SVG)" for new products and "Raster (TIFF, BMP, JPEG, PNG)" for existing data products. Native format files will be supplied to the Government upon request or if specified in the DD Form 1423. With the exception of specific types of technical drawings and databases, the preferred native file format for most deliveries is in the latest commonly available version of MS Office (MS Word for text and tables, MS Excel format for spreadsheets and MS Power Point for presentations).

12. With the exception of specific types of technical drawings, the contractor shall use U.S. A-size paper for formatting of all data items.

<b>18. ESTIMATED TOTAL PRICE</b>

- **Sizing**

(Software Lines of code (SLOC)) - shall be based on new, reused, modified, total, and Effective software lines of code (ESLOC--combines binding code and COTS modules) and definition of how each is calculated shall be provided. ESLOC shall include all code. The sizing metrics shall include an initial estimate of SLOC and the actual at completion (EAC). SLOC will include both physical and logical counts. Monthly SLOC reports shall be comprised of updates of both SLOC estimates at completion and current, actual SLOC for the CORE. Do not include comment lines in both counts and percentage. Provide initial estimate and final usage MIPS requirements for the processor. Provide initial estimate and final Memory Utilization.

- **Requirements Metrics, SRS reported monthly.**

Total Number of Requirements/ Total Number Implemented  
Number of Requirements Tested successfully  
Number of Requirements Changed  
Number of New Requirements  
Number of Requirements Deleted

- **Software Complexity**

The cyclomatic complexity of the code (e.g., using McCabe metric) shall be reported for the CORE as counts of the number of functions/methods having cyclomatic complexity measures in one of the ranges 0-5, 6-10, 11-15, 16-20, over 20. This information shall be reported to the government on a quarterly basis.

- **Productivity Numbers**

Productivity shall be provided on a monthly basis by processor. The definition of how productivity is being calculated shall be defined in the SDP and standardized across the team.

- **Test Metrics**

Test progress to include test cases planned, developed; test procedures developed; test procedures executed successfully, executed and failed, and execution blocked over time; requirements verified, and test reports completed. The following metrics related to test shall be included:

CSCI PR density (problems / CSCI size)

PR rate per release

PR/ KSLOC

Requirements verified

Planned progress over time in terms of number of test cases or number of test points to be completed successfully and percent complete on a monthly basis

Number of test cases attempted on a monthly basis

Number of test cases completed successfully on a monthly basis

**CONTRACT DATA REQUIREMENTS LIST (CDRL)**  
( 1 Data Item)

Form Approved  
OMB No. 0704-0188

The public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to the Department of Defense, Executive Services Directorate (0704-0188). Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number. Please do not return your form to the above organization. Send completed form to the Government Issuing Contracting Officer for the Contract/PR No. listed in Block E.
