

**SHF Antenna Repair
N00039-10-R-0041
Bidders Questions
14 June 2010**

| Page | Question | Response |
|-------|--|--|
| 2 | APG Repair (Item 0001 FFP): Please define method of calculation for 'Max Amount' | The Max Amount is determined in each Delivery Order not to exceed maximum quantity for each pricing table |
| 2 | Engineering Services (Item 002 CPFF): Please confirm whether \$93K NTE includes both cost and fixed fee | CLIN 0002, \$93,000 NTE includes both cost and fixed fee. In Section B, Offeror will identify its fixed fee and cost not to exceed \$93,000. |
| 4 – 6 | Tables B-2 and B-3: these tables do not allow for component pricing across multiple order years. Please specify whether prices listed in these tables should be for Year 1 or another period. | The offeror may propose escalation of items listed in Table B-2 and B-3 for Years 2-5, if necessary, in separate tables, by year. |
| 4 | <p>Per RFP: <i>“Table B-1 pricing shall include all of the parts listed above and all labor associated with baseline APG repair as described in SOW paragraph 4.1 for APG quantities 1-5. Final price of each APG repair in Pricing Table B-1 will include above pricing, plus new or refurbished motors and bearings from tables B-2 and B-3 below to complete the Baseline Replacement Materials as listed in SOW Appendix A.”</i></p> <p>This paragraph is ambiguous. Is the pricing in Table B-1 defined as repair labor and materials (a) exclusive or (b) inclusive of components priced in Tables B-2 and B-3? If (b), is Table B-2 or Table B-3 to be applied to pricing with Table B-1? How is escalation of items listed in Tables B-2 and B-3 to be presented (see previous comment)?</p> | Pricing in Table B-1 is exclusive of component pricing in Tables B-2 and B-3. The offeror may propose escalation of items listed in Table B-2 and B-3 for Years 2-5, if necessary, in separate tables, by year. See Amendment A0001. |
| 5 | Tables B-2: Line Item 8 (H278240) RAM is identified at the vendor component level vice a finished RAM kit for the entire antenna pedestal. Please clarify whether the requested pricing is for the component or the finished kit. | The requested pricing is for the component RAM. |
| 57 | Volume 2, Section B (Cost/Price Proposal): Does the pricing table for the two scenarios request extended or unit pricing for the order quantities specified? | Section L, Para 2.3, Volume 2, Section B: The tables for the two scenarios shall be at the extended price. |
| 5 | Table B-2: Please specify whether quantities specified in this table are for the component (e.g., one torque motor) or for the finished repair (e.g., two torque motors per repair). | The B-2 Pricing Table quantities are for the components (i.e., one torque motor). |
| 3 | Table B-1: Please clarify whether shipping costs are to be embedded within the baseline APG cost specified in Table B-1. Because the two destinations are very far apart, the shipping charges will vary considerably depending on specified destination per | The offeror shall include shipping pricing in the APG repair total price. |

| | | |
|----|---|---|
| | delivery order. We request that shipping charges be itemized separately from repair costs in Table B-1, and included as a separate table within the cost proposal. | |
| 57 | Volume 2, Section B (Cost/Price Proposal): Scenario 2 requests pricing for 8 APGs. However, Section B-1 stipulates that a maximum of 5 APGs per year will be ordered under CLIN001. Please clarify whether pricing up to 8 simultaneous APG orders is required. | See Amendment A0001, Section L-316 and M-313. |
